OBJECTIVE

Aspiring Frontend Developer seeking an opportunity to build responsive and user-friendly web applications using modern technologies like React and JavaScript, while continuously enhancing my technical and problem-solving skills.

EDUCATION

The Northcap University, Gurugram, Haryana

2023- 2026

Bachelor of Computer Applications (BCA)

Current CGPA: 8.30 / 10

EXPERIENCE

Internship

(MAY-JULY 2025)

The Sanshil Foundation

(Under Seamedu – School of Media, Technology and Management)

- Delivered digital literacy sessions and introduced fundamental programming concepts to learners.
- Utilized MS Office tools (Word, Excel, PowerPoint) for documentation, reporting, and managing digital workflows.
- Assisted in organizing and conducting hands-on workshops, supporting participants in basic coding and system operations.
- Collaborated with team members to ensure smooth execution of training sessions and learning activities

PROJECTS

PrepEdge – Learning & Practice Platform

- Developed a dynamic quiz platform with real-time question rendering and user interaction handling
- Implemented progress tracking logic to monitor user performance and completion status
- Designed an intuitive user interface focused on usability, navigation, and clean layout
- Structured code for scalability and maintainability using modular components
- Project Link: <https://prepedge-ivev.onrender.com>

Responsive Portfolio Website

- Built a fully responsive portfolio using React with reusable component architecture
- Implemented client-side routing and state management using React Hooks
- Optimized performance through efficient rendering and code structuring
- Deployed the application on Vercel with version control via GitHub
- Project Link: <https://portfolio-eight-rho-1o3pj99mu0.vercel.app/>

The Divine Drift - Browser-Based Game

- Developed an interactive browser-based game using JavaScript with an event-driven architecture
- Implemented real-time user interactions, animations, and game state management for smooth gameplay
- Utilized DOM manipulation for dynamic rendering and a responsive user experience
- Managed version control using Git and deployed the application online
- Project Link: <https://divine-drift.vercel.app/>

TECHNICAL SKILLS

Language: Python, JavaScript (REACT.js), HTML5, CSS3, SQL (MySQL, PostgreSQL)

Core Subjects: Data Structures & Algorithms, Database Management Systems, Web Development, Computer Networks, Game Testing, Linux, SQL

Tools & Platforms: GitHub, Vercel, Figma, Unity, Adobe Premiere Pro, Adobe Illustrator, Blender

ACADEMIC EXPERIENCE

- Developed multiple web-based projects, including a quiz platform and browser-based game, using HTML, CSS, and JavaScript
- Created and shared informative and creative poster content on LinkedIn, demonstrating skills in visual communication, design thinking, and content creation
- Participated in delivering digital literacy and basic programming workshops during an internship at Sanshil Foundation
- Gained hands-on experience with GitHub, version control, and deployment platforms (Vercel)
- Actively exploring frontend development concepts, including UI/UX design, responsive layouts, and state management
